

VOL. IV. No. 277.

EDMONTON, WEDNESDAY, NOVEMBER 19, 1913.

SIXTEEN PAGES

ROBBERS EER STORE AND SHOOT AT POLICEMAN

Bullets Wied of Mark and Iscreants Get Away

William Wensel, proprietor of Store, is Awakened by Sound of Revolvers—He Gain Entrance by a Rear Window and Escapes Piled Up When Discovered.

To have his store entered by burglars, his slumbers rudely disturbed by the sound of gunshots, and then to be mistaken for a burglar by three stalwart policemen was the somewhat unusual experience at an early hour this morning of Mr. William Wensel, proprietor of the store at 28 Main street south, on the south side.

Mr. Wensel told his story to a representative of the Capital, and in the telling of it he was not at all downhearted, because he was able to state that the men whose intention it had been to relieve him of some of his worldly possessions had been balked in their intention. The ground floor of Mr. Wensel's extensive brick building is occupied by a grocery store, while Mr. Wensel has his home immediately above.

"It was about half-past 11 when I went to bed last night," said Mr. Wensel, "and about an hour later I was awakened by hearing a couple of shots fired. I jumped out of bed, and at first I thought they had been fired in some of the rooms in the house, but I hurriedly put on some clothes and ran downstairs. When I reached the sidewalk and looked about, I saw there was not a soul in sight. I walked toward the door of the store, and just as I was about to enter, I saw three men rushing at top speed in my direction. For a moment I hesitated, but then I decided to try to escape. I turned out that they had imagined I was a burglar."

Constable Job was one of the pursuers, and he explained to me that a few minutes prior to my arrival on the scene he had been standing in front of the store, which had stood within an open door at the rear of my store. It appeared that Constable Job, in the course of his duties, had paid a visit to my store to see that all was right, and on approaching the back premises had

heard a noise proceeding from the pennis. He was within a yard or two of the door when it was suddenly opened and almost immediately three men came rushing out. One of the men, who was armed with a revolver, fired at the policeman. Fortunately for the officer, the bullets went wide. Job had no gun on him, and possibly thinking of the better part of valour he hurried away from the scene in order to obtain assistance. It was while he was absent on this mission that I reached the sidewalk.

"I accompanied the three policemen while they made an examination of the premises. We found that the burglars had gained entrance by removing a pane of glass from a window in the basement. They had been busy engaged piling up shirts and other underwear preparatory to their removal when Constable Job disturbed their labors."

"One of the would-be thieves must have jumped through the office window after the alarm as the glass is all smashed and many of the papers that were on my desk scattered around. The office window is about 12 feet distant from the ground. So far as I know at present the robbers got nothing for their pains. There was no money in the store. I never keep any there at night. I have a safe, but that I'm going to have a lock fixed on the cover that conceals the basement window."

When the door was locked I returned to my home. Captain J. Robinson, interviewed in connection with the affair, stated that no arrests had yet been made. The police had discovered an overcoat on a lumber pile in the neighborhood of Mr. Wensel's store, and it was thought that this had belonged to one of the burglars.

Questioned as to the fact that Constable Job was not carrying a revolver when he came in contact with the criminals, Captain Robinson remarked that a revolver was supplied by the department to every man in the service and that they were expected to carry it, especially when on night duty.

Why No Gun.

Referring to the fact that Constable Job had no revolver in his possession, a representative of the Capital that only those who had received instruction in the handling of weapons were allowed to carry them, and they had first of all to receive a certificate from Constable Watson, proving their efficiency in this respect. Constable Job, added the chief, was a new recruit, and he had not yet received this certificate. That was the reason why he was not armed, with a gun. The other two constables were permitted to carry firearms only at night. During the day they were unarmed.

CITY CLERK CO WILL BE RETURNING OFFICER

Working During Past Was So Satisfactory He Will Do It Again.

City Clerk Chas. E. D. Cox has been appointed as returning officer in the coming municipal election. Alderman Calder suggested to council last night that Chas. E. D. Cox be given the appointment this year, considering that he being outside of the city employment might be in a position to give better advice and more attention to the voters.

However, this view did not meet with the approval of the council, who voted in favor of retaining the city clerk as returning officer. Mr. Chas. E. D. Cox has been entirely satisfactory.

DEVELOPMENT OF WATERWAYS CLOSING MANY ACTIVITIES

Many Improvements Northwest of City is Creating Interest in Property.

Really glorious in the city report usual activity in property in the northwest of the city. This is explained by the great developments taking place, foremost being the connection of the city street railway with the St. Albert line. It is reported that the Edmonton Interurban company will complete the link link tomorrow, when it will be possible to have a through run from the heart of the city to St. Albert with a change of cars at Albert avenue.

The fact that the Alberta and Grand trunk railway will have its terminals in conjunction with those of the Edmonton, Devonian and B. C. railway immediately to the west of the Bronx subdivision is another contributory factor to the general movement.

The removal of the McArthur company's entire plant from Transcona to the terminals here, it is believed, will lead to the building up in the northwest of a community like Calder which now has a population of 2,500. It is understood that the Grand Trunk line spending \$2,000,000 in the extension of their line at Calder, while the Edmonton Devonian railway contemplates constructing a depot this winter on their line.

Especially in the proximity of the McArthur yards and along the route of the street railway considerable residential building is promised in the future.

The B. C. & D. C. railway company have decided to supply water to any property where a connection is desired. This is the intention of the main. This main connects with the city at the intersection of the main line, running along the former avenue to Twenty-seventh street, north as far as the intersection of the main line, and west through the Bronx property to the railway yards. This will be a valuable asset to property owners, and renders possible the erection of modern residences.

FIRE LOSSES THIS YEAR NOT OVER \$250,000

Error in Report Placing Them at Over a Million Quite Misleading.

Owing to an error in the report of the fire record for the month of October, which appeared in the columns of yesterday's Capital, a false impression may have been created as to the magnitude of the month's losses from fire. The following is the corrected statement: Amount of insurance carried on buildings burned or partly burned, \$1,325,000. Actual amount paid out by insurance companies, \$164,000. The actual sum that Chief Lauder and his men effected a saving of well over a million if the possible loss is considered.

The fire department's fiscal year ends December 31, and not October 31, as formerly. Chief Lauder stated to the Capital in this connection, that although the new arrangement would lengthen the present year to 12 months, he felt sure the year's total loss would be less than the year's total loss in the Thistle risk fire, which will have a large share in this total.

APPEAL FOR HELP BUILDERS' WAX INDIGNANT AT THE COMMISSIONERS

Exchange of Protests Against Wire of Underwriters Regarding Fire Losses.

The Edmonton Builders' Exchange entered an emphatic protest last night regarding the recent action of the commissioners in writing the underwriters. The Builders' Exchange, which has been organized since the fire of 1910, is indignant at the action of the commissioners. Attached to their office is a committee of representatives of the underwriters, the commissioners and the exchange.

The commissioners reported that the damage done to the Douglas block by the recent fire did not exceed 40 per cent, while three men had estimated to the exchange that the damages would amount to over 80 per cent.

Notwithstanding the protest of the underwriters, the commissioners had sent permission to the owners to reconstruct the building on the site of the Douglas block. The owners had agreed with the exchange that the Edmonton building would be replaced on the site of the Douglas block. To compel the owners to build a modern structure and tear down their present building which cost over \$50,000 would be a hardship, said Alderman Walsh.

Alderman Livingston reminded his colleagues that if he had \$500,000 insurance to pay for fire protection he would not be so ready to allow infringements of the law.

The building which is located at every turn, said Alderman Driscoll, and which is the property of the council should sit up and take notice. The council has refused permission to certain individuals and the building is a charge of illegally utilizing their employment. The proceedings against them opened in the district court this morning.

THIRTY PASSENGERS AND CREW ARE RESCUED BY BATTLESHIP

Iron Duke Makes Timely Rescue in English Channel—Steamer Scots Dyke Catches Fire Off Isle of Wight—Life Boats Burned.

London, Nov. 19.—The British battleship Iron Duke effected a timely rescue of the 30 passengers and crew of the steamer Scots Dyke, while the steamer was burning in the English channel early today.

The steamer, bound from Middlesbrough for Sunderland, caught fire off the Isle of Wight shortly after midnight.

The blaze started in a deck cargo of grass and spread rapidly through the inflammable material that the crew were unable to stop its progress. The fire attacked the ship's bridge and a number of the life boats, which were destroyed. A heavy sea made it impossible to launch the few remaining life boats. The passengers and crew were forced to the stern of the steamer.

The battleship Iron Duke was fortuitously en route to the channel during the night, and when the burning steamer was sighted sailors rescued the 30 passengers and crew. The ship was a mine of flames when the battleship reached the scene, and the help-

SIXTY-FIVE THOUSAND FACTORY HANDS STRIKE

Workers in St. Petersburg and Northern Russia Lay Down Tools.

St. Petersburg, Nov. 19.—A general strike of factory hands in St. Petersburg and the northern provinces started today, 65,000 laying down their tools this morning.

The movement was a protest by the workers against the trial of some employees of the Baku works on a charge of illegally utilizing their employment. The proceedings against them opened in the district court this morning.

WASHERS AT HALF MAST

Port William, Ont. 19.—Under telegraphic instructions from head office ships of the big fleets in port here yesterday were flying flags at half mast out of respect to the sailors lost in the recent storm on the lakes.

POPE RECEIVES MEXICANS

Rome, Nov. 19.—Pope Pius today received a party of Mexican pilgrims just returned from Palestine. They were introduced by Rev. Jose Ramon Ibarra, Archbishop of Puebla. After imparting the apostolic benediction his holiness the Pope expressed the wish that the blessing of peace would be given soon to their country.

WASHINGTON STALL PATIENTLY WAITING FOR DEVELOPMENTS

DAN ALTON WILL CARE FOR SKATING LAKES

Will Pay His Sweepers on Ice and Clear Them of Ice and Snow.

Dan Alton has had another job located on his department. For some days the commissioners have been trying to decide who should bear the cost of keeping McCormick's Lake and the lake in East End Park clear of snow and slush for the benefit of skating. They first suggested that slucers should bear the cost of sweeping the ice. Mr. Woodroffe objected to this suggestion and recommended that the city should be responsible for playgrounds should see that the rinks are kept in shape. Mr. Jackson was then communicated with, but he did not see why such a task should be imposed on him. Finally as a last resort the commissioners ordered the streets department to do the work. Dan Alton had his sweepers out and made a clean sweep of the lakes.

Revolutionary Movement is Spreading Rapidly

Expecting Insurgents to Capture Control Whole Tier of Mexican States—Senora Huerta Holds Reception in Palace—Hundreds are Killed in Battle and Bodies Litter Streets.

Washington, Nov. 19.—Absence of any evidence that fresh instructions had gone forward from Washington to John Lind or Charge O'Shaughnessy, was understood in official circles here yesterday to mark the advent of another period of patient waiting for some decisive development in Mexico.

In spite of all the rumors of blockades and war departments as might be expected to precede adoption of any radical steps by the administration. Moreover, it has been intimated in official quarters that only by direction of congress would such a step be taken. Officials still decline to give any information as to what has been accomplished by Hale and Carranza and his constitutionalist allies.

Spread Rapidly.

State department advisers made public yesterday indicated that insurrectionary movement is spreading rapidly not only in the north of Mexico, but to the south and east. This last development is regarded here as very important, because the success of the constitutionalists in obtaining possession of the rich oil fields in the east and some deep water port on the Gulf coast would enormously strengthen them from a military point of view, the former insuring them a easy treasury. The city is afloat with multitudes of war, from Europeans in the West Indies.

Rebel Control of North Tier.

The state department is looking for news of the capture by the insurgents of Veracruz, the capital of the state of Tamaulipas, which would complete the rebel control of the north tier of Mexican states. A consular representative yesterday from Vera Cruz stated that all bridges between Tampico and Veracruz had been destroyed, train traffic totally suspended, and the tracks to the north and south of Veracruz town had been destroyed. The city is about 10 miles north-west of Tampico, and it is understood the safety of a considerable number of persons who are in the city is being threatened by the military operations there. The German cruiser Bremen arrived Monday at Tampico, the nearest port to Veracruz, to offer refuge to the Germans in that neighborhood who had fled from the city. The state of the state that day before it was captured by the insurgents a few days ago.

Senora's Reception.

At the last meeting of council on the subject of the display of Central Alberta products in charge of J. L. Porte, many letters are being received daily at the office of the industrial commissioner. Here is a sample, received today from W. E. Ball of Winfield, Kansas, who enclosed with his letter 71 post cards and the names of a few of his friends who are interested in what Alberta has to offer:

"I am sending you the names of a few of the friends of the industrial commissioner who I wish to receive your literature. I was in your city a few days ago and was very much impressed with the city and surrounding country. I met your friend Mr. Porter who was in our city with your grain display and I helped him and talked for him all I could. He left me a lot of literature and I am proud and am showing my friends. An fixing up a sample room in my home to display your grain to my friends and neighbors. I think Canada will catch me as soon as I can get back to this country."

HOURS FOR VOTING.

After due consideration the council voted last night in favor of the following hours for voting: 10 hours for polling votes this year as obtained last year, namely, from 9 a.m. to 7 p.m. At the last meeting of council W. J. McManis addressed the council in support of an extension of the hours to 8 p.m. and all the working men might have an opportunity to poll their votes. The trades and labor council also asked that the time be made 7 p.m. to 9 p.m. and approved by council last night.

DAN ALTON WILL CARE FOR SKATING LAKES

Will Pay His Sweepers on Ice and Clear Them of Ice and Snow.

Dan Alton has had another job located on his department. "SANTALAND" IS THE REALM OF JOY FOR ALL

DEAR OLD SANTA; what a wonderful play ground he has made for all the boys and girls in "Santaland," second floor. The wonderful selection of toys he has brought with him has made the little eyes sparkle with astonishment and the little eyes open wide with wonder at the marvelous spectacle.

There are TOYS, TOYS, TOYS. There are all kinds: funny Owls which sit up and look at one so wisely, trains which seem to want to be always on the go, and all the mechanical toys that one could think of or wish for.

Santa must have a lot of girl friends here too for he has brought ever so many dolls; there are beautifully dressed little misses, with such sweet and becoming smiles, and dolls which go to sleep with their play fellows.

"SANTALAND" is gaily decorated with festooning and colored lights and everything is so gay and Christmassy-like.

SANTA CLAUS IS HERE EVERYDAY.

"Santaland" Second Floor.

Santa's Favorite Dolly for \$1.85

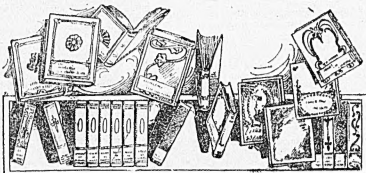

Here is Santa's favorite dolly and she is a beauty too. She is fully 26 inches, just a wonderful baby doll. Soft silky hair, nice clear complexion, and eyes which are really beautiful, she can go to sleep too. She is jointed in every limb and can be seated or stood up and she can be put to bed too. She is really a dandy and one of the best girls that Santa Claus could leave the little girl, and it would delight and please here. A doll which will stand a little more hard knocks than most and one which is not easily broken. HUDSON'S BAY SPECIAL. **1.85**

Ladies! Here's Just the Thing for Skating

Ladies' and misses' aviation caps of all wool, just the thing to go skating in. Hand crocheted in fancy stitch, made in plain and combination colors of red and white, red and blue, blue and tan, white and red. Regular values \$1.25 to \$2. SPECIAL. **75c**

Children's Flannelette Nightgowns 49c
Children's flannelette nightgowns of good flannelette in plain pink and stripes, made with small yoke back and front, collarless neck and long sleeves, finished with embroidery. Size 2 to 6 years. Regular values 60c and 65c. SPECIAL. **49c**

Are You a Lover of Books?

Well, if you are, this is your opportunity. On Thursday we are clearing out from the Circulating Library a surplus stock of books which are all in the very best of condition, some have been used very little and others are absolutely new, but every one has our stamp on them and that is the reason for such a low price. There are about three hundred of the best books—the works of your favorite authors such as Robert W. Chambers, Philip Oppenheim, John Fox, Richard Dehan, Harold Bell Wright, Jeffery Farnol, Baroness Orczy, Ralph Connor and many others. The selection includes the latest works of these men in well bound books. These books cost us from 85c to \$1.00, all to sell THURSDAY. **35c**

The Boys Need Warmer Clothing Now A Few Specials

For selling Thursday here is a dandy special. We have an odd bunch of Boys' and Youths' coats and pull-over sweaters, which we want to clear and they are real good if you can get the size you want. Regular values \$1.75. THURSDAY. **85c**
Boys' and Youths' Stanfield's Red Label rib underwear in a good unshrinkable quality at **75c and 85c**
Boys' rib-worsted black hose, just the thing for hard wear. "The Bay" will give them for **25c, 35c and 40c**

THROUGH this space Santa Claus issues an invitation to all boys and girls under ten years of age to write to him. Just a friendly letter telling what you most desire for Christmas and anything you wish to tell him. To the little girl's letter which pleases him most he will give a beautiful dressed doll, and to boy's letter which pleases him most he will give a Suit of Clothes.

Write your name and address quite plainly on the inside, address your envelope to Santa Claus and drop it in the box in "Santaland," second floor. Santa will receive these letters from now till December 22nd, and on that date the winners will be announced and the prizes delivered. From time to time some of these letters will be published on this space and if your letter should appear call at "Santaland" and Santa will give you a prize.

There is nothing Santa loves better than receiving letters from his little friends and although he will be too busy to answer them all he will be delighted to receive them, so don't delay, boys and girls if you want to please him.

Readers of The Capital are requested to have the management by reporting any irregularities in delivery.

ALBERTA'S UNIQUE OFFER TO THE PROSPECTIVE SETTLER.

Galveston, Waco, Beaumont, Houston and San Antonio, five of the principal cities in the state of Texas, have adopted the principle of taxation in vogue in Edmonton, namely, the assessment of land alone and the exemption of improvements. The state of Iowa now permits the classification of property at different rates for taxation purposes, thereby permitting the exemption of improvements. California has passed a home rule bill which will permit any county or municipality to exempt improvements, and Pennsylvania has adopted a statute providing for the gradual reduction of taxation upon improvements.

Taken as a criterion, these moves in different parts of United States indicate that before long Alberta will have lost its monopoly of being able to hold out the inducement to the prospective settler of immunity from personal property taxation and from taxation upon improvements. This immunity from taxation which Alberta has been able to offer to the intending settler has been a most magnetic advertisement for this province, seizing upon the imagination of those who in various states of the American union have been harassed by the assessor with his absurd tax laws which levied even upon the farmer's buggy, his live stock and his watch. Missouri less than a year ago rejected a constitutional amendment providing for the adoption of the exemption of improvements as in vogue in Alberta, but Missouri is complaining most bitterly of all today of the exodus of farmers to the Canadian West. Evidently Iowa and California have seen the light, and propose to meet the magnetism of the Canadian west by placing the inducements of those states on a level with Alberta and Saskatchewan so far as taxation is concerned.

With this becoming the general idea throughout the country from which Alberta must get a large part of her settlers or in competition with which Alberta must attract settlers, it now behooves Alberta to go one step further in order that this province may keep continually in advance of all others in what it has to offer the prospective settler. This next step the government of Alberta has taken by the introduction of the increment tax. Through this measure it is proposed to retain to the public a part of the publicly created increase in land value and to use the money for the purpose of public improvements, such as the construction of roads, trails and bridges throughout the province, thereby not only exempting industry from direct taxation but recovering for the benefit of the industrious farmer some part of the social value which his industry has created.

When any state in the American union meets the advance which Alberta has made in this respect, Alberta will undoubtedly have already progressed farther along the way in relieving industry from taxation. In the meantime, the Alberta measure is so far in advance of anything in vogue south of the line that this province will stand out in the unique position of being able to offer the prospective settler something which no other section of the North American continent has to offer.

THE DUKE'S OFFER AND HIS ASSESSMENT.

The Duke of Sutherland, thinking to bring confusion on Lloyd George in his proposal to put an end to the holding of large areas of land in the British Isles for game preserves, offers to sell to the government his 200,000 acres of deer forests in Sutherlandshire at \$10 an acre. The chancellor has referred the offer to the department concerned, and the discovery is made that the land in question is assessed for taxation at 18 cents an acre, which, figured on a 20-years purchase of taxable value, would make the land worth \$3.75 an acre.

Either the duke has escaped taxation on \$1,250,000 of the value of his land or he is asking that much too much for what he is offering to sell.

CITY'S BUSINESS THE BIGGEST BUSINESS.

When citizens can pour in a million and a half of money into the city treasury in the course of a few days to get the benefit of a discount upon their tax payments, the circumstance does not bear out very forcibly the supposition that there is a money shortage in this city sufficient to cause any serious alarm.

The city's business is the biggest business in the city, and the levy of three million dollars as the amount necessary to carry on for one year gives a pretty clear idea of what proportions that business is growing.

THE CENTRALISTS' IDEA OF THE NAVAL QUESTION.

It is especially provided in the militia act that Canadians cannot be sent abroad to foreign wars. This was recognized as proper by the British government and by the Canadian conservative government which enacted this law. It does not hinder Canadians from going abroad to fight the empire's battles, as they did in South Africa, or earlier in Egypt.

The law which is good for the Canadian land militia should be equally good for the Canadian naval militia. But the centralists insist that when Great Britain fights, every Dominion must be fighting too. Free choice for Britain and compulsory choice for the Dominions.

INFORMATION FOR CIVIC BUREAU OF EMPLOYMENT

Bowness is Collecting Data to Meet Needs of the Unemployed.

The efficiency bureau, under the direction of E. W. Bowness is collecting information to be used in the near future in connection with the organization of a civic employment bureau along lines that will meet the needs of the unemployed and at the same time give better service to the employers of labor. There is no reflection cast on the present bureau under the direction of Superintendent Purdie, but the cost engineer believes that there is a larger field for this department could fill if properly organized.

In explaining the matter, the cost engineer stated that an effort will be made to co-operate with other municipal free employment bureaus all through the cities of the west. In this way it will be possible for men to be put in touch directly with those requiring their services, even though the places may be thousands of miles apart. Records will be kept of the various kinds of work which the unemployed desire to do, and the various places which keep each other informed as to the need for certain classes of labor and by interchanging in accordance with the demand it is hoped that a better service will be rendered not only to the employed but also to the employer of labor.

When asked what he would do with the hundreds of private employment bureaus, the cost engineer replied that the free civic ones would be made so popular and be carried along in such a way that everybody looking for work would go to the city before visiting the private agencies.

The scheme was discussed this morning with Thos. R. Turnbull, of the civic employment bureau, who is agreed that the department could be handled along the lines suggested. The subject will be given further consideration later when more data as to practice elsewhere is at hand.

PUBLIC MEETING WILL BE HELD IN FRIDAY EVENING

City Administration Will Give Account of Stewardship During Past Year.

After a conference with several of the aldermen this afternoon Mayor Short announced that the next public meeting will be held in the Bijou theatre, first street, on Friday evening, November 21st at eight o'clock. At this meeting a statement will be presented by the administration in which will be set forth the work completed during the year. As a large number of the citizens will be in attendance at this meeting, the largest and best audience has been secured. The Bijou will seat something over 1000 people. An effort was made by city clerk today to get a larger audience for the meeting, but this could not be done. The committee appointed last night to arrange for the use of public schools for campaign meetings is considering this matter today and will announce later the schools selected and the dates on which the schools will be open to the various parties.

Y.M.C.A. NOTES.

OH-SE-IOU-FUL SOCIAL AT THE Y.M.C.A.
Last evening the Y.M.C.A. gave a most enjoyable social of one of the most pleasant of events. The program was a series of games conducted by the different churches. The game was held under the auspices of the Y.M.C.A. of Wesley Methodist church.

The program consisted of an exhibition in the gymnasium, followed by musical and literary numbers. The frequent requests demanded by the audience gave proof of appreciation. The basketball team of the world's series basketball games never held a more appreciative bunch of fans than those who were gathered in the gymnasium and witnessed the game of indoor basketball played. The competing teams gave one of the best exhibitions of indoor basketball one would ever see.

The program was divided into two parts, the first being a series of games, the second a series of literary and musical numbers. The first part was the most popular, and the first basketball game, in which the first team, the "Oaks," defeated the "Pines," 15 to 10. The second game, in which the "Pines" defeated the "Oaks," 15 to 10. The third game, in which the "Oaks" defeated the "Pines," 15 to 10. The fourth game, in which the "Pines" defeated the "Oaks," 15 to 10. The fifth game, in which the "Oaks" defeated the "Pines," 15 to 10. The sixth game, in which the "Pines" defeated the "Oaks," 15 to 10. The seventh game, in which the "Oaks" defeated the "Pines," 15 to 10. The eighth game, in which the "Pines" defeated the "Oaks," 15 to 10. The ninth game, in which the "Oaks" defeated the "Pines," 15 to 10. The tenth game, in which the "Pines" defeated the "Oaks," 15 to 10.

GUilty OF MURDER.
Winnipeg, Nov. 19.—An absolutely important summit-up marked the close of the trial of James Saunders this morning in the assizes court. It was the charge of murdering Grace Saunders, his sister-in-law, at Lockport, Man., on October 8. The jury returned a verdict at 12.25, finding him guilty, commencing their deliberations at 2.30. At 3 o'clock they returned with a verdict of guilty of murder.

CORRESPONDENCE

VACCINATION

Dear Sir:—I note with pleasure the correspondence in your column on vaccination. There are at least thousands in this province of Alberta who desire to come to grips with this heathen practice of the medical profession. It is quite true that those who believe vaccination to be detrimental to the lives and health of the people should form an "anti-vaccination society." The reason for this is that the medical profession would be forced to meet their opponents on the public platform. Anti-vaccinators have no doubt of the result. Vaccination would imply because of the past and sanitation and hygiene would be recognized as the only sane means of fighting disease of any kind.

ARTHUR J. LEWIS,
of Calgary.

J. S. EWART, K.C., ADDRESSES THE CANADIAN CLUB

Delivers Interesting Discourse on Canada's Position in the Empire.

"Canadian Imperialism" was the subject chosen by Mr. J. S. Ewart, K.C., of Ottawa, in his speech this afternoon at the Canadian club luncheon in the Empress hotel. There was a very large attendance of members presided over by the president, Mr. John Stewart.

Mr. Ewart, who, as is well-known, had the honor of representing Canada at The Hague, delivered an address in which he discussed the position of Canada in the empire, and the great interest. The whole tenor of his remarks was that while Canada should have a common sovereignty with the United Kingdom and the rest of the British empire she should enjoy absolute independence. He pointed out that at the present time Canada possessed no international status, whereas Hawaii and other small places had.

Mr. Ewart's remarks were listened to with close attention, and at the conclusion of his address the speaker was moved by Colonel Edwards.

The secretary announced the addition of 20 new names to the membership roll, all of which met with the approval of the meeting.

"PROTEA" COMING TOMORROW
TO THE MURDER THEATRE.

The biggest attraction of the western moving pictures will be shown at the Murder Theatre, this evening and Saturday of this week. The story of "Protea" is interesting in that it deals with the failure of the royal detective and the success of Protea under various disguises. She finally delivers the treaty to the commissioner of police and is warmly thanked for her service.

JUDGMENT FOR CARROLL.
In the case of ex-convict Carroll, who secured judgment in the police court for the offence of carrying a dangerous weapon, an appeal was heard in the district court this morning, when a decision was handed down against the former convict and condemning the city to pay costs in both hearings.

FIRST THINGS

The first great triumph of the people over a political boss of an American city was recorded in 1908. Today, when William Barry Tweed, the boss of the infamous "Tweed Ring," was sentenced to 12 years imprisonment and fined \$15,000. This was the answer of the people, as represented by their courts of justice, to the challenge of "bossism." "What are you going to do about it?" Tweed a politician for many years, was appointed commissioner of public works for the city of New York in 1870, and the "ring" of which he was the leader succeeded in bartering the city's money for the private gain of the "boss." The "boss" was made of his ability to "get away with the swag." He was a man of great energy and with the press and outraged public opinion, he was driven into exile. He was taken to New York in 1875, he escaped and fled to Spain, where he was captured, returned to New York, and was imprisoned in the Tombs, where he died in 1878. The operation of the Tweed Ring, the largest of domination, cost the taxpayers \$100,000,000. Except for the newspapers it would have cost them many times that sum.

Steamer Balmes on Fire 600 Miles From Bermuda

New York, Nov. 19.—With 103 passengers rescued from the burning steamer *Balmes* at sea, 600 miles east of Bermuda last Thursday, the steamer *Pannonia* arrived here last night. Most of the *Balmes'* passengers were from Cuba and bound for Cadiz or Barce-

ona. The Pannonia, from Trieste for New York, heard the wireless call of the Balmes when 180 miles distant. The Pannonia reached the side of the burning steamer on Thursday evening, but it was not until Friday morning that she transferred the passengers. The crew of the Balmes refused to leave the burning vessel which was towed to Bermuda by the Pannonia. After the Balmes was beached at St. George, the Pannonia proceeded to this port.

George the Admiral proceeded to make heroic fight.

Captain Robert Capper, of the Panamanian, in telling of the rescue of the Halmes, says that he gave full credit to the heroic fight, Captain Ruiz and his men of the Halmes made to save their ship. The commander of the burning steamer, refused to leave the vessel,

with cotton in the hold ablaze and men officers fearing an explosion if the hatches were opened.

It was determined, however, to swim down for a transfer of the passengers. Then the boats were manned and the transfer made over a choppy sea.

Pitiful Sight.

and after the passengers were removed to the Pannonia the latter followed the Cunarder to Bermuda, still battling to keep down the flames, although the men were reduced to the last degree of exhaustion by the time land was reached.

Struggling With Flames.

"The women and children were brought away in the first boat, 37 of them," said Captain Capper, "and when they came alongside the Pannonia the men were passed up the ladder from the lifeboats.

It was a pitiful sight. The women were near collapse.

Captain Capper said the run of the Pannonia to the vicinity where the crew of Balmes was struggling with the flames was as speedy as could be, as his wireless messages told him no other ship was near and it devolved upon the Pannonia to give the needed aid to the distressed Spaniard. He added the title of the article.

McDOUGALL FALSE PRETENSES TRIAL IS ADJOURNED

Accused Claims That He Is Innocent of Charge Against Him.

NEVER SAW TRUDEAU TILL IN POLICE COURT

Instructed Friend to Return Bagley's \$11—Hunting for Another McDougall of Winnipeg.

Mistaken identity was the defense put up in the district court yesterday before Judge Taylor by Cecil McDougall, in connection with the charge brought against him of having obtained from J. A. Trudeau \$225.00 by false pretenses.

In all there were two charges against McDougall, the one bid by Trudeau and the other by John E. Bagley, in which involved the sum of \$11. Both had to do with a real estate transaction involving the sale of lot 25—St. Norwood. Accused, in giving evidence on his own behalf, admitted that he had received money from Bagley as a deposit on the lot referred to. He (the accused) had acted in good faith in this matter, he had paid \$10 on the lot and thought he would be able to deliver the title. However, he learned later that he would be unable to do so, and in order to leaving the city he had instructed a friend of his to return the \$11 to Mr. Bagley. In regard to the charge by Mr. Trudeau, he declared emphatically that he had never had any business relations with that gentleman, and that the first time he had ever met him was in the police court. Moreover, at that time when he was supposed to have obtained the money from Mr. Trudeau he was, as a matter of fact, in St. Louis, Mo., where he had gone to take up a position as second mate on board a lake vessel. McDougall further averred that there had been a man in Winnipeg using the name of Russell A. McDougall—the name written on the check when he was in connection with the Norwood lot. This man, calling himself Russell A. McDougall, had defrauded a number of merchants in Winnipeg by means of bogus checks. Accused had been taken round the Winnipeg stores in question by a police officer to see whether he could be identified as the man who had passed the check, but not one of the storekeepers had declared him to be the swindler. The trial was then adjourned until Thursday in order that Sergeant J. F. Vegreville, who was the officer who accompanied accused on his visit to the Winnipeg stores where the bogus checks had been circulated, might be on hand to give his evidence.

BIG SUIT IN MOOSE JAW

Moose Jaw, Nov. 18.—A suit for \$100,000 damages has been commenced against the city of Moose Jaw by J. W. Knowles, Hare and Benson, representing Fred H. Montgomery and Bert Montgomery, owners of a large hotel, which is a subdivision east of the city. The writ is a claim for damages to the property owing to the pollution of the Moose Jaw creek, which runs through the subdivision, an injunction restraining the city from further polluting the creek is also asked.

TWO BROTHERS ASPHYXIATED

Toronto, Nov. 18.—With the gas jet in their room turned on full, two brothers, Archie and Neil MacFarlane, were found unconscious and in a dying condition in their room at 165 Dundas street this morning. Before the doctor could be summoned the brothers had expired. They were strangers in the city, arriving here two weeks ago.

CLERICAL ERRORS CAUSE OF MONEY WRONG OBTAINED

Owing to Discrepancies in Finance Dep., \$15,425.24 Was Improperly Raised

STAFF APPARENTLY UNABLE TO CYPHER

Aldermen Puzzled as to What Should Be Done With the Money.

"The members of this council are so flustered that they don't know what to do with this money," said Alderman Livingstone in council last night when a report from City Auditor Morris was read to which he informed the council that, due to a number of errors in making out schedules, \$15,425.24 had been raised in the 1913 debenture for works already provided for in previous years. Of this amount errors in addition totalled \$9,000.

The report of the auditor on these discrepancies was referred to the city commissioners for investigation and report as to what they recommend doing with the extra money now on hand. The auditor recommended that the money be placed in the credit of sinking fund or use it to re-purchase debentures on the open market.

The aldermen apparently were stunned with this report and had little comment to make. "It seems as if we have a start that is not able to add up figures," said Alderman Lundy. "That's about what it amounts to," responded the auditor, "the auditor's report of the first is as follows:

The first is a discrepancy of \$15,425.24 in schedule "C" of bylaw No. 514, which appears in the schedule of the total shown on schedule "C" is \$1,137.00, and on this basis the debentures have been sold; the total shown is, however, incorrect to the extent of \$1,000.00, made up as follows:

Net error in addition 5,000.00
The correct total of these figures appears in the schedule of the total shown on schedule "C" is \$1,137.00, but this amount must be reduced \$15,425.24, made up by the following items:

West side Caven from Westminster to Woodward ave. \$250.00
Beech to Alberta 250.00
S. S. East Ave. from First St. to Second St. 200.00
S. S. East Ave. from Sixth St. to Seventh St. E. 210.00
S. S. Seventh Ave. from First St. to Sixth St. E. 230.00
1,410.00

All of these items were included in the year of 1912 and should not have been included in schedule "C" of 1913.

S. S. Second Ave. S. E. from Fifth St. to Sixth St. E. \$230.00
S. S. Second Ave. S. E. from Fifth St. to Sixth St. E. 230.00
\$659.00

Also included in work of 1912 and shown twice on schedule "C" of 1913.

Highland St. from Sixth Ave. to Broadway, east side \$1,412.00

It is explained that this sidewalk was laid in 1911 and 1912, and should not have been shown on schedule "C" of 1913.

Amount of plank shown in "C" in error \$4,741.98
Amount brought forward \$4,741.98

Boulevards.
Morris St. from Kinsland to Ryndale Ave. Shown in engineers statement at \$2,159.00 but figures in schedule "C" transposed 2,519.00

Engineers estimate. Included concrete walk on south side of street, to value of \$9,000, but this had also been included in schedule "C" for "Concrete walks" \$9,000.00
\$1,430.00

Grading.
Struck from schedule "C" after passing of bylaw 514 262.50
No reason is given why this amount should be struck off the schedule after bylaw was passed

The causes which have contributed to these discrepancies may be traced to the misadventure of the city engineers. The estimates are prepared, also to the hurried manner in which it is prepared by law No. 514 was dealt with.

Bylaw No. 514 was amalgamated with others under bylaw No. 521, and to Kleinworth, the date of issue being August 2. Debentures have therefore been oversold to the extent of \$15,425.24, made up of the discrepancies above outlined. The amount received for these debentures oversold at present lies in the general funds of the city, but it should be permitted to remain there. There are two ways by which this amount can now be treated, as follows:

1. Place in the sinking fund.
2. Used to re-purchase, on the open market, the debentures oversold.

3. Commends itself to the one who, under the circumstances, the least loss will accrue to the city, and it is recommended for your consideration. Respectfully submitted.

A. N. MOUTAT.
City Auditor.

Gained in Weight, Digestion Restored, Health Renewed

Here Is More Proof of Quick Cure for All Folk That are Weak, Ailing, Nervous.

More Praise for Dr. Hamilton's Pills.

"For a period last summer the thought of food excited feelings of nausea," writes Mr. G. A. Dodge, of Chicago. "The best food I could get was useless and the distaste for food reduced me to a condition of semi-starvation and brought me to the verge of nervous collapse. Tonic were useless to restore an active desire for food. The doctors told me my liver and kidneys were both at fault, but the medicine they gave me were too severe and reduced my strength so that I had to abandon them. At the suggestion of a friend who had been cured of blood and skin troubles I began the use of Dr. Hamilton's Pills. The difference I first noticed was that while they cleaned the system, instead of feeling weaker, I felt better after taking them. Indeed they acted so mild it was easy to forget I had taken them at all; they seemed to go right to the liver, and in a very brief time they not only did all sources of nausea disappear, but I began to crave food. I digested it reasonably well. Then I began to put on weight until within two months I was brought to the condition of good health. I urge Dr. Hamilton's Pills for all who are in poor health and want to get back to the best of all medicines to take and refuse a substitute for Dr. Hamilton's Pills of Mankato and St. Paul, Minn. Sold by all druggists and storekeepers, 25c per box or five for \$1.00. Sent postpaid by The Cataractine Co., Buffalo, N.Y., and Kingston, Canada.

Get Not In Favor.

Alderman Ed. objected to the city entering the idea of purchasing this property. He stated that while the skating is good this fall it usually freezes enough. He also observed that the bottom of the lake is weedy, and therefore the suggestion of Mr. McKay that it would be more useful in summer on account of its value for boating did not obtain.

Alderman Clark stated that it might be a very opportune time to purchase now, in view of the fact that the other portion of the property held by a citizen now in the limelight.

"Evidently you know who owns it," said Alderman Livingstone. "Yes," replied Alderman Clark. "It is owned by Mr. McNamara, and he might do so to the city before the elections."

The matter was then referred to a special committee, consisting of Aldermen Ed. Clark, J. A. Lundy, and J. May. This committee will consider the merits of the proposition, look the ground over and bring up their recommendations to council at a later meeting.

ALDERMEN AND TRUSTEES HAVE JOINT MEETINGS

Candidates to Hold Campaign Gatherings in School Buildings During Elections.

A special committee of council, consisting of Aldermen Clark, Douglas and Smith, has been appointed to take up a suggestion made by the school board which in effect is "that there should be co-operation in regard to the holding of campaign meetings in the city and the school board. In a letter from the secretary-treasurer of the board to the council, it is suggested that the assembly halls of the permanent schools could be secured at \$15 an evening and other schools at \$5.

Aldermen Smith and Driscoll spoke in favor of the scheme while Alderman Clark took the view that the school board should exercise the greatest caution in the granting of these halls, there may be meetings held every night for weeks, and the city will have a big bill to pay and no money to pay it with. The committee will arrange to go in which the school board will use the various schools selected at the same time and see that the schools chosen are in districts in different sections of the city.

"I wish to advise," says W. D. Brady, "that at a recent meeting of the board a resolution was adopted whereby it was decided to allow the city of the assembly halls of the permanent schools, and rooms in the smaller frame schools where such schools are convenient, situated at election time, or other time when citizens require public discussion of any questions affecting ratepayers."

"Should schools be used for any such meetings during election time, or other time when ratepayers are present, it is understood that equal courtesy shall be shown to all candidates."

"It is the endeavor of this board to have the permanent schools held in the schools mutually under the control of the school board and the municipal council, and the city clerk acting in conjunction in order to effect this control, and particularly so as to the school board and school trustee elections."

"The charges to be assessed to the city in this connection for the purposes for which they will require the schools will be as follows: Assembly hall of permanent schools, \$15 per evening; rooms in other schools, 5c per evening; this charges to include cleaning and preparation of the school for the meeting."

"It is also desired that at least one notice notice be given to the secretary of the school board, in order that the caretakers may be notified, and the schools be in readiness for use for the purpose intended."

"If the city is prepared to not upon this, I shall be pleased to have a communication from you in writing to this effect."

CONDUCTORS TAP BOXES.

Saskatoon, Nov. 18.—Two railway conductors were placed under arrest at noon yesterday on charges of tapping telegraph boxes. Six more are expected. Thieves, believed to have been going on for some time, were thoroughly investigated by Mayor Harrison and the city commissioners, and much incriminating evidence is available.

SHALL COUNCIL BUY MCKERNAN'S LAKE FOR SKATERS

Hon. A. G. McKay Makes Offer to City at Last Night's Meeting.

CLIENT WOULD SELL OUT FOR \$78,400

Committee Will Look Over Property and Report With Recommendation at Next Meeting.

On behalf of the Parkdale Investment Co., A. G. McKay appeared at the council last night and offered to sell to the city 14 acres of land, being a portion of McKernan's lake, for the sum of \$78,400. This price, he stated, is a very fair one, as it figures out only at \$550 a lot, there being about 98 lots. The property is not subdivided and no plans have been filed. Mr. McKay also suggested that the west half of the lake might also be purchased.

Barbers Praise NEWBRO'S HERPICIDE

As the Best Remedy for the Hair and Scalp

"I have been using Newbro's Herpicide for the last four years and find it the best thing made."

Joseph Pizzetti,
1771 Richmond Terrace,
West Brighton, L.I., N.Y.

"I can truthfully say that Herpicide is the best remedy for the hair I have ever used."

O. A. Nathanielson,
Vibron, Ill.

"I have used many preparations in my shop, and find Herpicide out of all for falling hair and diseases of the scalp."

J. A. Oliver,
1. Leola, Ark.

"Newbro's Herpicide has always given the best of satisfaction."

W. Chambers,
Tockville, Wash.

While the barber necessarily carries other hair remedies, Newbro's Herpicide is sold by all dealers, who guarantee it. He can conscientiously recommend it to remove dandruff and stop falling hair. In making an application of Herpicide he feels and knows that the customer is receiving full value for his money and will be benefited far in excess of its expenditure.

Newbro's Herpicide in 50c and \$1.00 sizes is sold by all dealers, who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

Send for postage for sample and book on the hair to The Herpicide Co., Dept. A, Toledo, O.

Geo. H. Graydon, E. M. Carpenter, special agents.

OLD FOLKS BLINDNESS TREATED AT CHICAGO

Dr. Elliott, of Indian Medical Service, Performs Operation at Clinic.

Chicago, Nov. 18.—Official reports of the Eye Clinics of Dr. Robert H. Elliott, of the Indian Medical Service, presented at an executive session of the Chicago Ophthalmological society last night were made public.

Dr. Elliott is the originator of an operation for Glaucoma, popularly known as "Old Folks Blindness" which he has demonstrated in various cities, including Chicago, at the recent clinical congress of surgeons and at Minneapolis.

In the latter city 15 cases were treated and according to the reports, 17 were successful. The operation is a very stubborn one and the result of the operation cannot be known for at least three months.

John Nelson, a farmer in Wallula, N. D., is said to do all his work on his 140 acres with no assistance except from his own family, in which there are five sons and four daughters, all of them expert farmers.

GIVES UP HOPE BECAUSE OF DRINK

The drink habit is a discouraging habit both to the drinker and to the drinker's family. Drinking men prove themselves but always fail to do so because they will-power to resist it. It is the drinker's duty to stop drinking.

Dr. Elliott, of Indian Medical Service, Performs Operation at Clinic.

EXPLOSION ENTOMBS BELIEVERS

25 AND 40 ALABAMA MINERS

Bodies of Seven Married Men Have Been Recovered

Yesterday Being Pay-Day, it is Not Known How Many Men Reported for Work—Some Were Negroes and Some Were White Men—Rescue Party at Work.

Acton, Ala., Nov. 19.—An explosion in No. 2 mine of the Alabama Fuel and Iron company here at 3:45 o'clock this afternoon entombed between 25 and 40 miners according to estimates of the company officials.

Up to 9 o'clock seven bodies had been recovered.

The list of dead—

L. L. Patterson,
L. T. Bright,
John Langston,
Henry Childers, boss driver,
Burris Kirtland,
Two unidentified negroes.

All except Kirtland were married. Kirtland went into the mine only five minutes before the explosion, and was some cleaning. Three of the seven are Negroes and a number dead in the mine are thought to be Greek.

Of the victims some are white and some are negroes, as the mine employed miners of both races. The normal quota of employees is 70 men, but yesterday was pay-day at this mine and some did not report for work today. Twenty-three diggers entered the working this morning and early tonight it was not known how many others reported during the day.

The first rescue parties who entered the mine this evening searching for any who might be alive, reported that they had passed several dead bodies lying beside the tramway of the sloping entrance shaft.

Mine officials hurried here from Birmingham, 24 miles away. They brought State Mine Inspector Nesbitt

WASHINGTON STILL WAITING FOR DEVELOPMENTS

(Continued From Page One.)

Recruit by Conspiration.

The recruiting campaign by conspiracy is being carried on viciously, and there is little doubt that the number of men now ready for service is greater than the number of the rifles. Failure to land this shipment would be embarrassing to the war department.

The committee of new congress had under consideration for several hours today the case of the late Senator McPherson. Senator McPherson is said to be preparing a message for delivery on Thursday.

There was a noticeable relaxation of the tenacity of the past few days, on account of the cessation of the rumors that the embassy was about to leave and indications that no immediate action was intended at Vera Cruz.

Changes in Ministry.

No announcement has yet been made of a successor to Manuel Garsa Alcala as minister of interior. The removal of Querido Melone from the foreign ministry to that of the interior, and the appointment of Juan L. W. Brown, the son of a foreign minister, who filled under President Madero, was discussed in the press.

The mening of the town of Orizaba by the rebels and the consequent cessation of the communication between the federal capital and Vera Cruz, foreigners are flocking to the city in large numbers, and the possibility of being bottled up in Mexico.

Colonel Ramirez, in command of the federal forces at Vera Cruz, is fortifying the strategic points about the city, and reports to the government that he will be able to resist any attack by the rebels.

FEAR OF A FUP

COINTEGRATED COURT

Robert Fiddler Accused of Having Stolen a Coat Skin Garment.

SASKATOON MAN WAS IN RETIREMENT AT TIME Defendant Pleads Not Guilty But Woman Swears She Bought Coat for \$40.

The date of a fur coat that had perforce to be deserted by its owner, was related in the district court today by Judge Lewis. The case was that of Robert Fiddler, of Edmonton, of having between the 15 of May and the 4 of October, stolen a coat-skin coat valued at \$175. Fiddler pleaded not guilty, and the woman who bought the coat for \$40, sworn by Mr. L. W. Brown, who was called by the prosecution.

According to the evidence, Fiddler acted for the crown.

The case was that of Robert Fiddler, of Edmonton, of having between the 15 of May and the 4 of October, stolen a coat-skin coat valued at \$175. Fiddler pleaded not guilty, and the woman who bought the coat for \$40, sworn by Mr. L. W. Brown, who was called by the prosecution.

A Racking Cough And Sore Throat

Cured In Five Hours

Use the Proper Remedy and Colds and Sore Throat Disappear.

"When I came home last evening," writes Mr. Thomas E. Jarvis, "I was all used up with cold and a racking cough. Just a few hours later I had rubbed my throat and chest every hour, and made me sargie with Nerville, and the coughing sensation passed away. At 11 o'clock, after five hours' treatment, I was practically well. I therefore wrote you at once in order that it may be publicly known that Nerville will knock out a bad cold over night."

It is a fact that Nerville will ease up a tight chest, will relieve that sore, wheezy feeling, will knock out a cold in a few hours, will penetrate deeply, draws out the congestion, cures promptly, get a large family size bottle of Nerville at all drug stores and druggists or The Chiropractic Co., Buffalo, N.Y.

Doings of the City Council

Fixed the hours for polling from 9 a.m. to 7 p.m. Extended time for 10 per cent. discount on taxes until Saturday.

Received auditor's statement showing discrepancies of \$15,000.

Referred protest from builders' exchange to the commissioners.

Fixed the polling places for the municipal elections. Received offer of a portion of McKernan's lake for \$78,400. Approved of \$500 grant to the lakes' disaster fund. Considered offer of school board re schools for campaign meetings.

Authorized Mayor Short to call ratepayers meeting this week.

Steamer Balmes on Fire

600 Miles From Bermuda

Passengers Transferred in a Choppy Sea—Crew Refuse to Leave Burning Ship, and She Was Towed to Bermuda and Beached at St. George's.

New York, Nov. 19.—With 103 passengers rescued from the burning steamer Balmes at sea, 600 miles east of Bermuda last Thursday, the steamer Pannonia arrived here last night. Most of the passengers were from Cuba and bound for Cadiz or Barcelona. The Pannonia, from Trieste for New York, heard the wireless call of the Balmes when 180 miles distant. The Pannonia reached the side of the burning steamer on Thursday evening, but it was not until Friday morning that she transferred the passengers. The crew of the Balmes refused to leave the burning vessel, which was towed to Bermuda by the Pannonia. After the Balmes was beached at St. George's the Pannonia proceeded to this port.

With cotton in the hold and other inflammable materials officers feared an explosion if the boilers were opened.

It was determined, however, to wait until a transfer of the passengers. When the boats were manned and transferred made over a choppy sea.

Pitiful Sight.

"The women and children were brought away in the first boat, and then," said Captain Capper, "and when they came along the burning vessel, the women were reduced to the last degree of exhaustion by the time land was reached. It was a pitiful sight. The women were near collapse."

"The rescued women and children were put in the ship's hospital and the men were ready for the men. The passengers soon provided every one of the wrecked folk with clothes. At lunch time all the crew and passengers joined in a great cheering demonstration. I was very much affected, as I was altogether unanticipated and I was grateful beyond expression."

LITTLE CREDENCE

IS LACED IN THE STEFANSSON STORY

Department at Ottawa Believes That All is Well With Party.

TELEGRAM STATED SHIPS WERE AT COLLINS POINT. Stefansson Reported August 8 That He Had Bounded Barrow Place at Point Barrow.

Ottawa, Nov. 18.—Little credence is placed by the naval service department in the newspaper reports of the loss of some ships of the Stefansson expedition. The feeling among the department is that all is well. Even if a ship were caught in the ice and wrecked, the crew would be rescued by reaching shore, possessed as they are of every convenience for travel on the ice, including dogs.

The department received a telegram from Dr. Anderson on board the Alaka, near Circle, Alaska, dated last as November 10 last. Dr. Anderson is in charge of the southern party of the expedition. The telegram reads:

"Circle, Alaska. Canadian expedition, whalers Alaska and Mary Shale, winter in Collins point at Alaska. Heavy ice comes and prevented further advance eastward. All well. Scientific staff, under Chapman, Cox, Johnson, O'Neill, Karikak did reach Herald Island. Last seen off Flaxman Island about August 14. Had no ship able to get east of Demerol Point this year. Heavy Elvira cruised and sank off Humphreys Point, September 13. Believed caught off ice reef but apparently safe."

The telegram was sent by carriers to Circle, Alaska, and telegraphed from there. The department received a message from Stefansson on board the Karikak of the northern party, that "he had got around Point Barrow on August 8 and 9 of the others. This is the difficult point. The message stated that all was well and that the expedition was accounted for by a haul of \$24,000 in July for the Brazilian Traction and Power Company and by another large fee of \$14,000 in April of 1912. These were exceptional in size of capitalization.

DOOMED REAPS

GOODLY REVENUE FROM COMPANIES

Receives \$140,165 From Issuance of Letters Patent to Incorporators.

Ottawa, Nov. 18.—That the dominion reaps a goodly revenue from the companies which seek dominion incorporation is evidenced from the figures of the first seven months of the year ending October 31. Up to that date not less than \$140,165 was paid into the dominion treasury in the shape of fees for the issuance of dominion letters patent, and supplementary dominion letters patent. The fees are fixed according to the capitalization of the company, \$50 being charged for the first \$1000 capitalization and a sliding scale as the capitalization increases beyond the system, the amount per thousand, however, decreasing as the figures are reached.

As compared with the revenue for the corresponding period last year, there is an apparent falling-off this year. In 1912 the revenue for the first nine months was \$175,187.50, an increase of \$25,000 over this year. This, however, was accounted for by a haul of \$24,000 in July for the Brazilian Traction and Power Company and by another large fee of \$14,000 in April of 1912. These were exceptional in size of capitalization.

YEGOMEN FOUND GUILTY. SEKOGAN, Nov. 19.—Two alleged yegomen held by the detective department since arrest, November 6, were arraigned before Magistrate Brown's court yesterday morning, facing separate charges. J. C. Scarth, ring leader, pleading guilty to the charge of having in his possession a quantity of nitro-glycerine. He was remanded for sentence until this morning.

James Kelly was committed to stand trial on the charge of conspiring with Scarth to commit indictable offence.

Has the Public a Duty Towards the Post Office

Postal Clerks' Association Gives Some Valuable Pointers to the Public Regarding Their Relation to the Postal Service of the City and Country.

There can only be one answer to the above question, and such answer can only be in the affirmative. Yes, the public certainly has a duty towards the postal department of the civil service. If the public would only realize this, and act accordingly, a great number of complaints and sources of complaint would disappear.

We would like the following to be read carefully and considered a while: What is a postage stamp for and what does the purchase and sale of it imply? One seldom stops to think of this—it seems too trifling an every-day matter. Yet, your purchase of a stamp or stamp is the entering into of a contract between yourself and the post office department. The postmaster-general on the one side agrees to deliver your letter or other article of mail as quickly as possible to a given address, provided the postage is fully prepaid by your stamp. You, on your side of the contract, have to make up your mail matter in the prescribed form, address it fully and correctly, prepay the postage with your stamps, and mail the article. Should, if you do, you not enable the post office to keep their side of the bargain, "number one?" Then see that your correspondence are addressed to put them on also, put on your letters to others their full addresses.

If you have a box in the post office, you say? Well, then, when you rent that box you rent an address, and your mail ought to be addressed to it. Always tell your correspondents that your mail must be addressed to your box, otherwise it may be delayed.

If you are getting your mail at general delivery (Post Office), please your correspondents in that case also to use that means of address. Don't mix up the old with the new style of address in this city. Let's not put the old house number and the new street or avenue number on an address, and don't use the new house number with the old street or avenue number or name; there are no addresses. Either use the complete old address or the complete new address. No 505, 145th street, is exactly not the modern equivalent of 505, 5th street, but is an address somewhere in the far south of Strathcona.

It is a fact that mail would be even so much more quickly and correctly disposed of if the above were even moderately carried out by the public, but, unfortunately, the public of this city seem to be the very last people to realize that the growth of their city and the enormous increase in the number of its inhabitants render the postal service a very important one.

Not all the complaints that are made daily regarding the treatment and mis-treatment of mail are justified. A very large proportion are due to insufficient or incorrect addresses.

The heaviest season of the year will soon be upon us, and it would be a great convenience to the postal employees if the public generally would do their duty in the way of correspondents stating to their correspondents what their correct address is, and, if there are any changes about their correspondents' addresses, in making what they actually are and making use of them. In this way, the heavy Christmas and New Year season would be a problem of Western Canada would be half solved.

One of our other duties might be mentioned, and although they are trifles, they are "mighty atoms" in their way: Don't put mail matter in a "keep your city clean" rubbish bin. Not even though it be painted a rusty color.

Post all mail early, especially that intended for Christmas, and don't forget that it takes at the very least two weeks for your Christmas greetings and presents to travel to Europe and longer to travel distances.

Remember that the letter box and the parcel receptacle which are so handy at the corner of the street are only intended for occasional mail, and don't go and choke them both up until the letters, parcels, etc., are sickening out. If you have more than half-a-dozen letters, or if you have the time to take even one letter, take them to the next office where the proper place for them. The same applies to the newspapers and parcels even though they may be small ones.

Kindly note that in the Edmonton post office there are three letter boxes, one for city letters (city does not include Strathcona), one for letters to other places in all parts of Canada, and third for foreign (including British). Also note that North Edmonton, West Edmonton and Strathcona should not be put in the city box, and, further, that Strathcona post office has not yet been changed to South Edmonton.

If you are sending anything of value, register it. If you intend to send money, don't send it in coin or dollar bills. Do use envelopes which are not of a brittle nature. Many of such envelopes are mutilated by contact with heavier letters before they are even collected from the boxes.

Above all, remember that the Christmas season is coming on when mails are exceptionally heavy in this country, and are consequently difficult to handle, and don't forget that if you assist the post office by observing the above rules as far as possible, the greatest advantage will accrue to you in better and more correct service.

Finally—Keep it up when Christmas is over! Western towns and cities are growing bigger daily, but the population is still somewhat nomadic, and these two facts make it all the more necessary that mail be correctly directed.

Postal Clerks' Association of Western Canada (Edmonton Branch), Sten. H. K. T. Telford, President; Signe E. H. K. Telford, Secretary; Federation Association of Letter Carriers, Edmonton Branch; Signe A. M. Forrest, Vice-President; Signe W. H. Babin, Secretary.

Duluth reports no building halt in spite of the approach of winter. In October 144 permits were issued for buildings to cost a total of \$12,452.

Gold Sores
 Are your hands chapped, cracked or sore? Have you "cold cracks" which open and bleed when the skin is drawn tight? Have you a cold sore, festering, chafing, or a "flea" place, which at times makes it agony for you to go about your household duties? If so, Zam-Buk will give you relief, and will heal the frost-damaged skin. Anoint the sore places at night. Zam-Buk's rich healing essence will sink into the wounds, and the anointing, and will heal quickly.

Mrs. Yellen, of Portland, says: "My hands were so sore and cracked that I was unable to put them near water. When I did so they would smart and burn as if I had scalded them. I feared I was going to lose my hands. I tried Zam-Buk, and it succeeded when all else had failed. It closed the big cracks, gave me ease, cooled the inflammation, and in a very short time healed my hands."

Zam-Buk also cures chafing, eczema, winter cracks, itching, sore throat, sore eyes, and burns, abrasions, scalds, ringworm, etc. It is a sure cure for all skin troubles. It is a very short time healed my hands."

Zam-Buk
 Ulster may be excluded from Irish home rule

ULSTER MAY BE EXCLUDED FROM IRISH HOME RULE
 Liberals, However, Claim That Statement is Tittle Tattle and Misleading.

CLAIM THAT CABINET HAVE NOT CONSIDERED IT MEANWHILE ENLISTMENT GOES ON AND 88,000 ENGLISHMEN ENROLL UNDER ULSTER'S BANNER.

London, Nov. 19.—The Times yesterday contains a statement forecasting the exclusion of Ulster from the operation of the home rule bill, which is given right to the wide-spread discussion.

The Liberals characterize it as an unfounded and misleading tittle-tattle, but it is general belief that the Times statement is an inspired bid by the unionist leaders of their proposals for a settlement.

The Liberals assert, however, that the cabinet has not considered Ulster's exclusion, and is not prepared to go further than now proposed by the home rule bill in the extension of Ulster's administrative powers.

Meanwhile, the Duke of Bedford, Lord Charles Cavendish, Lord Cawston, Lord Lewisohn and Lord Willoughby de Broke, appeal to their able-bodied countrymen who think that Ulster is smiling, righteously to prepare themselves to reinforce the men who are going to risk their lives for the empire's integrity, and it is stated that 8,800 Englishmen are already enrolled in the cause.

Between Women's Health or Suffering
 The main reason why so many women suffer greatly at times is because of a run-down condition. Debility, poor circulation, languor, nervousness and worry.

BEECHAM'S PILLS
 The Largest Sale of Any Medicine in the World
 are the safest, surest, most convenient and most economical remedy. ALL THEY SAY ABOUT THIS TREATMENT MUST HAVE ITS ECHO IN THE CITY OF EDMONTON AND VICINITY

Edmonton Sanatorium Opens a Modern Establishment in Fourth St., Near Jasper

The Edmonton Sanatorium, just opened at 634 Fourth street, a short distance north of Jasper avenue, is one of the most modern establishments of its kind on the North American continent. The management has taken over the entire building, formerly one of the best residences in the downtown district, and refurbished the rooms and equipped two with apparatus, popularly known as "The Human Bake Oven," by the use of which permanent relief has been brought to many sufferers from rheumatism and other diseases resulting from exposure, poor circulation and bad blood.

The value of this treatment, which is endorsed by reputable medical practitioners in many parts of America and abroad, has demonstrated its worth in ridding the human system of diseases of parasitic and infective origin.

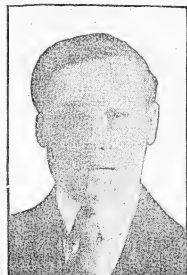

Noted physicians for years have advised the application of intense dry heat to the body, to the exclusion of everything else, as the one agency of the greatest benefit in the shortest time in acute articular rheumatism.

The treatment given in the Edmonton Sanatorium makes the patient feel comfortable at once; it releases pain in a few moments; it destroys the obstinate germs of disease from the blood; produces perfect circulation and eventually completely restores the patient to health.

The Edmonton Sanatorium is open to public inspection. The superintendent in charge has had wide and highly successful experience in the management of similar institutions. There are trained nurses in attendance for the care of ladies and children. No charge is made for consultation.

Well known residents of the Province of Alberta relate their experiences of how they were relieved and finally restored to health by superheated dry air, which is recognized by the scientific world as the most highly efficient therapeutic agency after suffering for years from rheumatism and kindred diseases.

FULLY RESTORED— REGAINS HEALTH

JOHN HALUSKA, Miner,
Coal Worker at Canmore, Alta.

Mr. John Haluska, a mine worker at Canmore, Alta., suffered nearly a year from rheumatism, which had crippled his limbs and caused him untold agony. He declares in a signed statement that he was cured by the Human Bake Oven treatment, and that he is in good health today.

Mrs. Isaiah Haynes of Lethbridge Recovers from Sciatica and Neuralgia.

Mrs. Haynes was restored to health by the "Human Bake Oven" treatment after suffering for years from sciatica and neuralgia.

R. G. ROBINSON, Pioneer.
Resident of Calgary is Well Man.

Mr. R. G. Robinson, a pioneer of Calgary, known to the old-timers all over the western country, could not move a joint when he was carried to the Sanatorium on a stretcher. He took one treatment a day for two months, when he walked from the institution to his home.

Human Bake Oven Conquers Rheumatism and Other Ailments that Torture Mankind

History records that heat has been used for many centuries to relieve pain. In the early days heat was produced by hot cloths, stones, metals, sand and salt and applied directly to the surface of the affected portion of the body. Then the inventors evolved the hot-water bag and the electrically heated mat or blanket, which served their purposes in a limited way.

These inventions were followed by an apparatus to permit a steady flow of boiling water through coils of rubber tubing, but it did not become popular, for obvious reasons.

Later the scientific world heard of the perfection of an apparatus by means of which dry air was heated to intense degrees, and physicians, who investigated more carefully the therapeutic properties of heat, particularly as administered as super-heated air, declared that permanent cures were possible by its application.

The Human Bake Ovens used in the Edmonton Sanatorium, 634 Fourth street, are not experiments. They have proved their value in giving resiliency to the blood conducting vessels and restoring perfect nutrition, which in itself means health.

Dr. Underwood, of New York, in a signed statement, says that dry air, heated from 250 to 300 degrees Fahrenheit, applied to affected parts of the body by means of the Bake Oven, even in cases of long standing ankylosis, not only gives speedy relief, but produces an absolute cure.

The Edmonton Sanatorium

Bake Oven is Wonder of Age

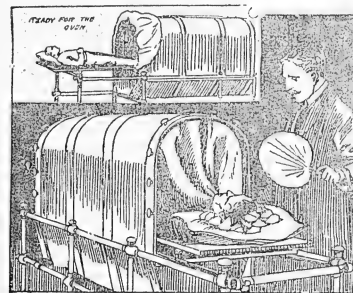

Apparatus Used at The Edmonton Sanatorium is Scientific Invention of the Highest Order, yet Simplicity Itself in Mechanism and Operation

This apparatus, known as "The Human Bake Oven," though a scientific invention of the highest order, is so simple in construction and mechanism and so easily operated that there is absolutely no danger to the patient.

Temperatures ranging from 350 to 500 degrees Fahrenheit have been applied to the human body with comfort and safety; in fact, the extreme heat is hardly noticeable, though the patient experiences the most delightful sensations as the life-giving blood is sent coursing through the vascular system, performing a therapeutic service to the starved tissues which no form of internal treatment could possibly reach.

The myriads of pores are opened from the moment that free perspiration begins, and the poison is expelled from the system. Rheumatism, neuralgia, lumbago, gout, sciatica and other ailments due to bad blood and poor circulation are literally driven out by the bake oven treatment.

"The Human Bake Oven" is not a panacea for every human ailment, but it has proved efficacious in many instances where the patients did not respond to other treatment.

The Human Bake Oven Used in the
Edmonton Sanatorium

Calgary Pioneer Gives His Testimony

Mr. R. G. Robinson, one of the best known of the old-timers of Calgary, had suffered from chronic rheumatism for 21 years, and although he tried various springs in different parts of the country, as well as consulting numerous specialists, he obtained no relief until he took the Bake Oven treatment.

Last winter he learned that some of his friends were taking or had taken the treatment at the Sanatorium and they had been permanently cured of their ailments. They endeavored to induce him to try the treatment, but he had almost given up all hope, so long and continually had he suffered.

At this time he was bedridden, but the advice of his friends finally prevailed and he was persuaded to go to the Sanatorium on a stretcher. He could not move a joint in his whole body; his toes, ankles, knees, hips, back, shoulders, elbows, wrists and hands would not move, and on his chest were large eruptions the size of rosebuds. They were red and inflamed. Calcified deposits, caused by the rheumatism, had formed on his chest, the result being continuous pain. He also had deposits on his right hand, which, after the treatment, entirely disappeared. So helpless was he when he first entered the Sanatorium that he had to be carried to the treating room by attendants.

"I was at the Sanatorium for two months," Mr. Robinson said, "and took one treatment each day, and at the end of that time I walked from the Sanatorium, and although I noticed at first a little stiffness in my limbs after four months that has entirely disappeared, and I would never think that I had ever been a cripple."

Rheumatism Driven from System by Human Bake Oven

Rheumatism is the terror of mankind. For centuries this torturing affliction has defied medical science; but at last the scourge of the race has been conquered, restoring to complete health hundreds of sufferers who had virtually abandoned all hope of even temporary relief. Rheumatism has been successfully driven from the human system by the Bake Oven, such as is now in operation at the Edmonton Sanatorium, 634 Fourth street, a few doors north of Jasper avenue.

Gustavus M. Blech, A.B., M.D., professor of casualty surgery at the Jenner Medical College, member of the American Medical Association, the Mississippi Valley Medical Association, the Northern Tri-State Medical Association, and Secretary of the West Chicago Medical Association, declares in an official report that "of the value of dry hot air in chronic rheumatism there can be no question," and adding: "The Human Bake Oven treatment is successful in ankylosis, chronic, articular and muscular rheumatism and synovitis. The intense heat reduces the inflammation even when situated deeply. It causes absorption of effusion and relieves pain."

Topically Applied Hot Air

BY BRET BLACK, M.D., WINDSOR, N. S.

If a current of this superheated air (Human Bake Oven) be allowed to come in contact with an affected joint, extremity or limited portion of the body, for a half hour or longer, beneficial results are obtained wherever inflammation, no matter of what character, has to be combated, pain relieved or absorption of exudative matter to be produced.

Currents of Heated Air

BY PROF. F. M. HALE, M.D., CHICAGO

The Bake Oven has been proved very successful. The success of this treatment seems little less than marvelous in removing or greatly alleviating ankylosis, arthritis, deformations, contractions, etc. The most rational solution of the constitution effect of highly heated currents of dry air upon the system is that it stimulates complete action of the heart.

Canmore Miner Completely Restored

Among the many testimonials on file at the Edmonton Sanatorium as to the value of the Human Bake Oven treatment, is one from Mr. John Haluska, a mine worker at Canmore, Alta., who declares he was completely restored to health by the application of superheated dry air. His story follows:

"I was a sufferer from rheumatism for nearly a year. So crippled was I that my limbs would cause me such excruciating agony that I could hardly walk, and I did not know what to do. I thought I would be a cripple all my life, and I had almost given up hope. I was employed in the coal mines at Canmore but had to give up as I could not do my work.

"Every move gave me terrible pain, but by a fortunate chance I heard of the Human Bake Oven, and so I came to investigate for myself. I went to the Sanatorium and there saw a number of people, and in talking with them I soon found out that there was something in the treatment, for they told me how they had suffered and had been cured. So I started, and after my first treatment felt better and was sure that it would cure me.

"Today I am able to say to the public that I am cured of rheumatism, and I advise all sufferers to go to the Human Bake Oven for treatment. Numerous persons in southern and central Alberta have been benefited by the Human Bake Oven treatment, and all are loud in their praises. Many wonderful things have been accomplished. It is the easiest thing imaginable to investigate the merits of this remarkable treatment."
